Our Autumn 2019 catalogue was incredibly well received and we're excited to follow that up with our new titles for Spring 2020.

This Spring, we have a great balance of perennially successful subjects alongside books that feature new ideas and trends. Long-standing D&C authors, Pam and Nicky Lintott, bring us *Jelly Roll Quilts: The Classic Collection* and we make a return to bag making with *The Complete Bag Making Masterclass*. Books such as *Crochet Hacking*, *Macraweave* and *Dried Flowers* pick up on the latest trends, while *Cross Stitch for the Soul* celebrates the strong link between crafting and mindfulness. *Cat Knits* is a fantastic book for the many million cat-loving knitters out there and I reserve a special mention for *Magical Woodland Knits*, a truly exquisite book with incredible projects and brilliant photography.

The list sees us building on our success in practical art. *3000 Colour Mixing Recipes* is a cornerstone book for all watercolour artists and *DIY Watercolor Jungle* is a follow up to our brilliantly successful 2019 book, *DIY Watercolor Flowers*.

We've been overwhelmed by the support and encouragement for new David and Charles. Thank you to our authors, distributors, agents and all our business partners for your good wishes and enthusiasm for our new company. We're all extremely proud of this Spring 2020 list and we look forward to working with you across all of the sales and marketing opportunities it presents.

Thank you for your interest.

# 3000 COLOR MIXING RECIPES: WATERCOLOR

## 3000 COLOR MIXING RECIPES: WATERCOLOR Julie Collins

A practical and inspirational manual that shows you a huge range of color mixes in watercolor. The aim of the book is to encourage you to get to know colors well and be motivated to explore and experiment with color. Use the book as a handy reference when you want to know how to mix a specific color, or as a catalog of inspiration when seeking ideas to try in your work. The handy color viewing card included can be used to view each color swatch in isolation. This will help sharpen your perception of the color or allow you to pinpoint a specific shade to use in your own work.

## Warm and cool colors

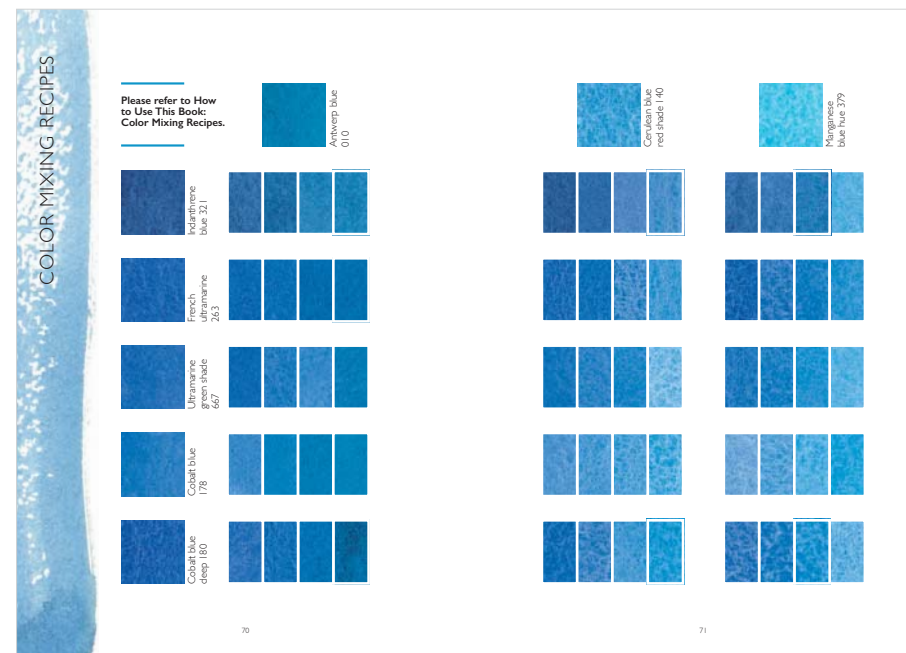

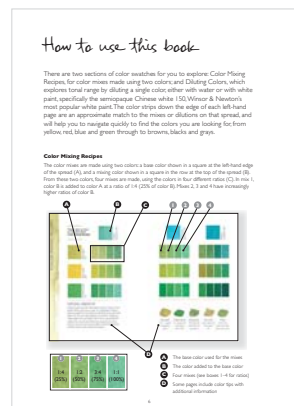

When you are learning about color mixing, a basic set of primary colors – red, blue and yellow – is a good starting point (see About Color and Color Mixing). Using just three colors as the base for all your color mixes is very useful for understanding how colors work, both separately and when mixed. With such a small range, you get to know the paints and the color mixes they create very intimately.

Another aspect of color mixing that you can go on to explore is that of warm and cool colors. In your painting, you will notice that warm colors tend to stand out and therefore come to the forefront of a picture, whereas cool colors tend to recede and look as if they are in the distance or background. By using warm and cool colors cleverly you can create a feeling of space in your pictures.

We tend to think in broad categories, describing all reds as warm and all blues as cool, for example. Exploring with color mixes will help you develop a more sophisticated appreciation for color: you will see that some reds are in fact cool and some blues are warm.

The chart opposite explores the idea of warm and cool reds and blues in more detail. You will see, for example, that Permanent alizarin crimson 466 is a cool red, as it is slightly blue, whereas Scarlet lake 603 is a hot red, as it is fairly orange. French ultramarine 263 is a warm blue, whereas Cerulean blue 137 is a cool blue. This kind of knowledge – which can become instinctive after a while – is best learned through experimenting for yourself, using the mixes in this book as guidance.

Warm red	Cool red	Warm blue	Cool blue
Cadmium red 094	Winsor red 726	Winsor blue red shade 709	Winsor blue green shade 707
Quinacridone red 548	Opera rose 448	French ultramarine 263	Cerulean blue 137
Scarlet lake 603	Permanent rose 502	Cerulean blue red shade 140	Indanthrene blue 321
Cadmium scarlet 106	Permanent alizarin crimson 466	Cobalt blue 178	Phthalo turquoise 526

With simple exercises and step-by-step tutorials, Jen shows you how to sketch the places around you from life, and those further afield from photos, using simple watercolour techniques to add vibrancy to your work.

Seller**BEGINNER'S GUIDE TO CROCHET***Sarah Shrimpton*

Beginner's Guide to Crochet comprehensively teaches all the basic crochet techniques, skills and stitches to get someone started. Each new technique is explained with accompanying photographs and diagrams and is followed directly with a project using those skills. The 20 projects include a cafetiere cosy, trellis scarf, teddy bear, a tablet cosy and of course, no crochet book would be complete without the staple granny blanket. Plus a section dedicated to 'extreme crochet', using t-shirt yarn to create larger-than-life crocheted creations. There is a distinctly modern feel to the projects and the author's chatty, informal style takes readers' on their journey from newbie to fully-fledged crocheter with ease.
