Portraits of Babies and Children

GIOVANNI CIVARDI

- Paperback • 80 pp • 295 x 210mm
- ISBN: 9781782215325 • £8.99

From world-renowned artist Giovanni Civardi, this highly practical series uses the traditional grid technique to make the drawing process both simple and accessible. Starting from a photograph, Civardi shows you how to create an accurate pencil sketch of the subject by overlaying a grid and transferring the image one square at a time. The sketch is then rendered in easy stages to create a finished drawing. Even the most complex of subjects can be broken down into easy steps using this method, and by studying Civardi's step-by-step exercises the reader will very soon be producing highly detailed drawings based on photographs of their own.
