ALL-NEW

20
TO MAKE

Launched in 2007, the first titles in the original *20 to Make* series were a publishing phenomenon. The *20 to Make* series was the first full-colour range of craft books to offer accessible inspiration across a range of subjects in a pocket-sized format – and at pocket-money prices of just £4.99. Over 2.5 million copies of the original series have now been sold.

The *All-New 20 to Make* series builds on that fabulous legacy. As with the original series, all the projects are simple to make with easy-to-follow instructions matching a detailed illustration of the finished project. The *All-New 20 to Make* series has been given a fresh, contemporary look that will appeal to a younger audience as well as traditional crafters.

They also include a comprehensive techniques section to help get readers started.

Beginners will love the simplicity of these straightforward projects, while more experienced crafters will find endless inspiration. Each title has 64 pages brimming with brand-new projects in a beautifully designed hard cover – for just £6.99.

Over 2.5 million copies of the original *20 to Make* series have now been sold globally. This stunning new hardback series builds on that legacy.

Each book: RRP £6.99 / AUD \$17.99 • Hardback • 209 x 149mm • 64 pages

Between them, these high-profile authors have sold in excess of 200,000 books around the world!

Countryside panorama in watercolour

Find the view you want: For the first sketch in this section, the author chose to paint a panoramic view of the English countryside. He had to decide what to include in the composition and what to leave out. The author chose to focus on the foreground and middle ground, leaving the background to suggest distance.

Scouting out: One of the best ways to find a good subject for sketching is to go for a walk and look around. The author suggests walking through fields, along paths, and through woods to find interesting scenes. He also suggests looking for subjects that are different from what you might normally see, such as a group of sheep or a lone tree.

My sketch: The author's sketch shows a person walking through a field, with a fence and trees in the background. The sketch is done in watercolour, with loose brushstrokes and washes.

Scouting out: One of the best ways to find a good subject for sketching is to go for a walk and look around. The author suggests walking through fields, along paths, and through woods to find interesting scenes. He also suggests looking for subjects that are different from what you might normally see, such as a group of sheep or a lone tree.

Using a viewfinder: A viewfinder is a simple device that can help you compose your sketch. It consists of a frame with a grid or a set of lines that you can hold up to your eye to frame your subject. This can help you to focus on the most interesting parts of the scene and to avoid including too much clutter.
